Chapter 70: Execution of Instruments
70.060 Consulting, Design and Construction

- A. The President shall have the authority to hire consultants and administer facilities design and construction operations in conformance with these Collected Rules and Regulations.
- B. Board of Curators approval shall be obtained for:
 - 1. Campus master plans when significant changes are proposed, but not less than every three years.
 - 2. The architectural and engineering consultant fees and the project budget, funding and scope of work for Capital Improvements projects with a total project cost of \$5,000,000 or more, or debt financed projects, before the design of the project is started. This does not include the pre-design programming and

planning to develop the estimated project cost, scope of work, and justification.

3. The architectural and engineering consultant when the fees are more than \$500,000 and the project cost is less than \$5,000,000.
4. If a previously approved Capital Improvement project changes substantially in size, scope, or cost, or the source of funds changes significantly, the Capital Improvement project shall be reapproved before construction begins, the Guaranteed Maximum Price is increased, or, in the case of a project that includes a series of construction contracts, the next construction contract is approved.

C. Debt Financed Capital Improvement Projects

1. Board of Curators approval shall be obtained for the use of debt financing on a project prior to bidding.
2. Facilities and Administrative Cost Recovery may be used as an identified funding source for the debt service on debt issued to build research and academic buildings at the University of Missouri, on a facility for which the Board has approved a business plan. The approval of a business plan must occur prior to hiring architectural and engineering consultants. See CRR 145.010 *“Policy for Management and Oversight of Debt and Derivatives”* for overall limitations on this funding source.

- K. Notwithstanding any provision herein to the contrary, the Board of Curators may, at its discretion, dispense with the competitive bidding and advertising requirements in this Section 70.060 as they relate to the construction of a building on University property if a private donor providing all or substantially all of the money for such construction project specifies, as a condition precedent to the donation, the architect and/or the general contractor to be utilized. In exercising its discretion concerning such donations, the Board of Curators' considerations will include, but not

necessarily be limited to, the capabilities and prior experience of the architect and/or general contractor with similar construction projects, the ability of the University to assure that the building meets all applicable construction standards and codes, any conflicts of interest that may exist for the donor, the architect and/or general contractor and the ability of the University to assure compliance with all applicable contract terms and laws related to such construction projects. Any such approval by the Board of Curators to dispense with the competitive bidding and advertising requirements in this Section 70.060 shall be contingent upon the willingness of the specified architect and/or general contractor to agree in writing to comply with standard University contract terms and conditions and to perform such contractual obligations for a specified amount within the specified budget for the construction project.

Collected Rules and Regulations

Chapter 145: Debt and Derivatives

145.010 Policy for Management and Oversight of Debt and Derivatives

A. Introduction – This policy establishes guidelines for the management and oversight of external debt and derivatives. The authorities, responsibilities and reporting requirements outlined in this section shall be informed by the guidelines contained within the following (collectively, “Debt and Derivative Policies”):

1. CRR 145.015 Debt Management Guidelines
2. CRR 145.020 Derivatives Policy

B. Overview of Borrowing Programs – The following provides a basic overview of the two primary external borrowing programs approved by the Board of Curators. The detailed applicable provisions of each program, including applicable issue-specific

issuance, payment and related logistical matters, are contained within board resolutions approved by the Board of Curators from time to time authorizing issuances of debt under such programs, and the associated offering documents.

1. System Facilities Revenue Bonds Program – Provides generally long-term financing for acquisition, construction, renovation or expansion of various University facilities. The principal and interest of the bonds are payable from, and secured by a first lien on and pledge of, designated revenues of the University’s revenue-producing system facilities, including campus bookstore receipts, housing and dining charges, hospital and patient services, and parking collections, as well as certain assessed fees, such as recreational facility fees, stadium surcharges, and student activity fees, and a portion of tuition and fees attributable to such facilities (collectively, “System Facilities Revenues”).

The University must continuously operate and maintain the facilities financed by the bonds and maintain sufficient rates and charges for use of such facilities as will allow the University to meet annual debt service requirements. Additionally, System Facilities Revenues, in aggregate, must at all times exceed 200% of the annual debt service requirements for the bonds in any given fiscal year.

2. Commercial Paper Program – Provides flexibility in managing the University’s overall debt program and may be utilized for various University financing needs including, but not limited to: a) capital projects, including the acquisition, construction, renovation or expansion of various University facilities, infrastructure or equipment, and b) providing a readily accessible source of funds for various working capital purposes.

Commercial Paper Notes (“CP Notes”) may be issued in taxable or tax-exempt form under the Commercial Paper program up to an aggregate amount authorized by the Board of Curators. Only taxable CP Notes may be utilized for working capital purposes. The maximum term of any CP Note is 270 days, and no more than \$100 million in CP Notes may mature within any seven calendar days.

CP Notes are limited obligations of the University payable solely out of and secured by a pledge of the University’s unrestricted revenues, which generally include state appropriations for general operations, student fee revenues, and all other operating revenues of the University other than System Facilities Revenues.

C. Authorities – The Board of Curators of the University of Missouri has the ultimate authority to determine the proper means for the management and oversight of the University’s debt and derivatives. Through this policy, the Board delegates certain specific authorities and responsibilities with respect to the management and oversight of debt and derivatives, which it has determined to be appropriate as described herein.

1. The following actions shall require Board of Curators approval after consideration of recommendations from University staff:
 - a. Approval of debt financing for individual capital projects, including the acquisition, construction, renovation or expansion of University facilities, infrastructure or equipment. In addition to specific System Facilities Revenues and various other sources of funding, Facilities and Administrative Cost Recovery (“FACR”) may be used as an identified funding source for internal debt service on debt issued to build University research and academic buildings, while not technically pledged to secure external debt. The total amount of FACR authorized for this purpose shall not exceed 20% of the annual average total FACR generated by the University over the three most recent fiscal years; and, the total amount approved for a campus’ projects shall not exceed 20% of the annual average total FACR generated by the respective campus over the three most recent fiscal years. Exceptions to this policy can be made at the discretion of and by a vote of the Board of Curators.
 - b. Issuance of debt, in any amount, under the System Facilities Revenue Bond Program.
 - c. Determination of the maximum aggregate amount of CP Notes that may be outstanding at any one time under the Commercial Paper Program (“authorized amount”).
 - d. Approval of Derivative Transactions as defined in CRR 145.020 “*Derivatives Policy.*” The authorizing resolution should clearly state the objective to be achieved by the transaction and the execution parameters should be consistent with the objective.
2. The following authority is hereby delegated by the Board to the Vice President for Finance and Administration or the Treasurer:
 - a. Within the Commercial Paper Program, issuance of CP Notes within the authorized amount of aggregate principal amount outstanding.

D. Responsibilities – The Vice President for Finance and Administration or her/his designees are responsible for the following:

1. Implement and monitor Debt and Derivative Policies.
2. Review Debt and Derivative Policies on an annual basis, with policy amendments submitted to the Board of Curators as necessary.
3. Maintain accurate records and monitor compliance with any requirements for debt and derivatives.
4. Establish procedures to monitor the financial exposure and other risks associated with any Derivative Transaction as defined in CRR 145.020 “*Derivatives Policy.*”
5. Periodic reporting to the Board as outlined in Section E of this policy.

E. Reporting – At minimum, the following reporting to the Board shall be required:

1. Quarterly: Summary of external debt and derivatives outstanding with appropriate metrics; listing of amount and general purpose of each CP Note currently outstanding (if any) under the Commercial Paper program.
2. Annually: Report of external debt authorized and outstanding by project; updated projections with respect to the University’s estimated debt capacity; and, current credit ratings.

Collected Rules and Regulations
Chapter 145: Debt and Derivatives
145.015 Debt Management Guidelines

A. Introduction - These debt management guidelines are designed to provide a framework for implementing the University’s debt issuances, to impose discipline on capital financing and operating budget decisions, to manage interest rate risk and to assist in the continued investment in the University’s facilities. Further, these guidelines shall help ensure adequate financial strength to service existing and proposed debt, to maintain leverage within an acceptable risk tolerance while investing in strategic capital and other initiatives, and to enhance a strong financial profile to ensure continued access to the capital and money markets. Finally, this guidance will aid management in ensuring that an appropriate mix and type of

funding resources are utilized and that the University's debt capacity continues to be used strategically.

- B. **Responsibilities and Authorities** – See CRR 145.010 “Policy for Management and Oversight of Debt and Derivatives.”
- C. **Approach to Debt Issuance** - While the University attempts to maximize the use of philanthropy, grants, internal funds and state and federal appropriations to fund capital projects, the strategic use of both taxable and tax-exempt debt can provide additional support for mission-critical investments and increase financial flexibility.

The University recognizes that debt is a limited resource. Debt should be used prudently within the University's constitutional and statutory authority for capital projects that are consistent with the mission and vision of the University. To assure that this criteria is met, an analysis of the ongoing impact of the projects on the University's finances must be performed in connection with any incurrence of debt.

Debt will be managed on a portfolio-wide basis with the goal of achieving the most favorable cost of capital within acceptable risk parameters.

The University recognizes that there is a relationship between debt and overall University liquidity. The University needs appropriate liquidity for its operations and debt and investment obligations. In order to manage this relationship, regular analysis of the on-going impact of debt on the University's liquidity must be performed.

The University will manage its exposure to lenders, debtholders and other similar external parties by diversifying its financial service providers in the roles of bond sales, variable rate bond remarketing, commercial paper dealers, swap counterparties, and providers of other banking services or others forms of credit enhancements.

- D. **Debt Capacity and Debt Affordability** - Debt capacity is a subjective measure, typically associated with balance sheet leverage. The University's risk tolerance and capital needs will inform how much leverage can comfortably be assumed. Debt affordability is in part a subjective measure, in this case associated with income statement leverage as well as ability to cover debt service from operations. Therefore the University's operating performance – either on a University, campus or project basis, as appropriate in the specific circumstance - along with projections of new

revenue associated with debt-financed projects, will determine the affordability of additional debt.

The following ratios are intended to be guidelines for use in determining the University's tolerance for additional debt and not to be an impediment to achieving the University's strategic objectives.

These ratios are used to measure the amount of outstanding debt compared to University's balance sheet resources (debt capacity) and the ability to service debt annually from operations (debt affordability). Such ratios shall be:

- Derived from audited financial statements;
- Calculated consistent with industry standards and peer institutions;
- Monitored on an on-going basis (annually and at the time of debt issuance);
- Re-evaluated as the University's capital needs and strategic initiatives evolve; and
- Compared with peer institutions.

1. Expendable Resources to Debt (Debt Capacity)

Unrestricted Net Assets + Restricted Expendable Net Assets / Outstanding Debt

This ratio is considered one of the most basic determinants of financial health by measuring coverage of direct debt by expendable financial resources. This ratio typically corresponds strongly with credit rating categories for rated institutions, so it is considered a good measure of *debt capacity* at a given rating level.

2. Debt to Revenue (Debt Capacity)

Outstanding Debt / Operating Revenues

This ratio measures the University's debt as a percent of total revenue and provides an overall measure of income statement leverage.

3. Debt Service to Operations (Debt Affordability)

Annual Debt Service / Total Operating Expense

This ratio measures the burden of debt service on the University's budget. This ratio is monitored to maintain the University's long-term operating flexibility to fund existing requirements and new initiatives.

4. Debt Service Coverage (Debt Affordability)

Operating Surplus (Deficit) + Interest and Depreciation Expense / Annual Debt Service

Debt service coverage measures the margin by which the University can repay its outstanding debt obligations. When assessing the potential incurrence of new debt, the additional revenues expected to be received by the University as a result of a debt-financed project may be considered in calculating the debt service coverage ratio if appropriately stress-tested.

E. Debt Portfolio Risk Management - Risk management is an enterprise-wide endeavour and understanding the University's exposure to various risks requires an integrated view of assets, liabilities and operations. Debt portfolio risks exist within this wider context and must inform and be informed by it.

Risks in the debt portfolio can broadly be categorized as interest rate risks or liquidity risks. The former impacts the budget and its ability to absorb volatility in interest expense. The latter impacts the balance sheet and its ability to absorb unexpected calls on liquidity. The following risks will be assessed at the time of each debt or derivatives transaction and will be routinely monitored and managed on a portfolio-wide basis.

The components of interest rate risk include the following:

1. Market Rate Risk: The risk of rising interest rates on variable rate exposure from bank lines, bonds, commercial paper or Derivative Transactions. Although not part of the then-current debt portfolio at a given point in time, the University recognizes that debt yet to be issued for future projects also represents interest rate exposure.
2. Tax Risk: The risk that tax-exempt bond rates may unexpectedly increase or fluctuate due to changes in the tax code.

3. Bank Facility Re-pricing Risk: The risk that the pricing for bank lines or letters of credit (if any) used to support variable rate bonds or commercial paper will increase after expiration.
4. Credit Risk: The risk that the University's underlying credit ratings and/or the credit ratings of a bank providing bank lines or letters of credit to support variable rate bonds or commercial paper are downgraded.
5. Basis Risk (swap related): The risk that any swap receipts do not fully offset borrowing costs.
6. Counterparty Performance Risk (swap related): The risk that a swap counterparty fails to perform under a swap agreement.

The components of liquidity risk include the following:

7. Remarketing Risk: The risk that variable rate demand bonds, put bonds or commercial paper cannot be remarketed and the Remarketing Agent puts the debt back to the University or the bank providing a bank line or letter of credit.
8. Roll Risk: The risk that bullet maturities, commercial paper or other balloon payments cannot be refinanced at maturity.
9. Bank Facility Renewal Risk: The risk of acceleration from the failure to renew an existing bank facility or to find a substitute facility.
10. Liquidity Provider Performance Risk: The risk that a liquidity provider fails to perform under an applicable bank line, letter of credit, or other liquidity agreement.
11. Swap Collateralization Risk: the risk that the mark-to-market of a swap declines and triggers a collateral posting requirement.
12. Swap Termination Risk: the risk that an automatic termination event from a counterparty results in a swap termination in which the University must pay to settle the swap.

The University will quantify its potential exposure to interest rate and liquidity risks under various risk scenarios. The University recognizes that risk can change rapidly in response to external and internal factors, and that adequate contingency plans need to be in place to address different environments.

The University recognizes that there is a trade-off between pursuing the lowest cost of funds and assuming risk in the debt portfolio. The amount of risk that the University will be willing to assume within its debt portfolio will be evaluated in the context of other risk factors affecting the institution, including investment risk, operational risk, and external economic factors.

F. Structuring Guidelines - The University will review all potential funding sources for its projects, with the goal of achieving the lowest overall cost of capital that is consistent with the University's risk profile. In determining the structure for a specific financing, the University will take into account a number of factors, including prevailing market conditions and its existing debt portfolio.

1. Fixed / Variable Mix: In general, fixed rate financing is used in order to avoid unexpected increases in interest costs in the future. Variable rate debt may be considered for funding in anticipation of gifts or when prepayment/restructuring flexibility is desired, or when long-term fixed interest rates are considered undesirable for locking in long-term rates, or for diversifying the University's debt portfolio. Since the use of variable rate instruments may require liquidity, the University will take such requirements into consideration when using variable rate debt and will manage its liquidity needs considering the entire asset and debt portfolio as well as different variable rate instruments, which may or may not require liquidity support. Exposure to and reliance on external parties, such as remarketing agents, commercial paper dealers and liquidity providers, will be considered on a comprehensive, University-wide basis.
2. Tax-Exempt/Taxable Debt: The University will evaluate the use of tax-exempt versus taxable debt based on market conditions at the time of issuance, type of facility being financed (as not all projects qualify for tax-exempt financing) and taking into account other strategic considerations, such as restrictions (or lack thereof) on the use of debt proceeds.
3. Refunding Criteria: The University will continuously monitor its outstanding debt for refunding and/or restructuring opportunities. For refundings, the University will consider transactions that produce appropriate present value savings, taking into account the level of interest rates, the remaining time before the call date and costs of issuance. Additional factors to be considered include

negative arbitrage (if any) and the use of derivatives or non-traditional bond structures.

4. Other Financing Sources: Opportunities for alternative and non-traditional transaction structures may be considered, including off-balance sheet financings. The University recognizes that these types of transactions can often be more expensive than traditional University debt structures; therefore, the benefits of any potential transaction must outweigh any potential costs and risks. Non-traditional structures should only be considered once the benefits have been identified and the likely impact on the University's debt capacity and credit has been determined.
5. Derivative Products: The University recognizes that derivative products may enable more opportunistic and flexible management of the debt portfolio. The University will consider the utilization of derivative products, subject to the provisions of CRR 145.020 "*Derivatives Policy*."

G. Methods of Debt Issuance – The University will select the preferred method of issuance for each debt sale dependent upon the type of transaction, market conditions, and the projects to be financed. The most common types of sale are negotiated, using one or more selected underwriters; competitive; or via private placements. When using a negotiated transaction, the University may either select one or more underwriters for an individual transaction or a series of transactions, or establish a pool of qualified underwriters from which the University will select one or more specific underwriter(s) for each transaction. In all cases, underwriters shall be selected as part of a competitive process based on a variety of factors, including but not limited to, the execution capabilities of the firm, service provided to the University, fees, and other strategic considerations. If utilized, an underwriting pool shall last no longer than 5 years before a new competitive process establishes another pool.

H. Rating Agency and Investor Relations - The University recognizes that an active program of credit rating agency and investor relations is critical for maintaining favorable capital market access. While the University recognizes that changes to its credit rating can affect its borrowing costs, decisions related to borrowing and structure will be driven first and foremost by strategic issues, including the

University's capital needs and its ability to afford debt, and not governed by issues relating to a specific credit rating.

- I. **Compliance** - The University will comply with all legal and contractual requirements for ongoing continuing disclosure related to its debt portfolio, including disclosure requirements under applicable SEC or MSRB rules and regulations contained in applicable continuing disclosure undertakings. The University may employ one or more dissemination agents to assist it in compliance with such requirements.

The University will comply with all applicable legal, contractual and other requirements for post-issuance compliance related to tax-exempt or other debt, including any applicable University policy and/or procedures adopted from time to time in order to so comply. Matters to be monitored and complied with pursuant thereto may include the investment, use and expenditure of proceeds of such debt; restrictions on the use of projects financed thereby; record retention and maintenance; ongoing compliance monitoring; interaction with bond counsel and/or disclosure counsel; monitoring of tax-exempt bond expenditures; arbitrage rebate monitoring, compliance and filings, and private business use monitoring and compliance.

Collected Rules and Regulations
Chapter 145: Debt and Derivatives
145.020 Derivatives Policy

- A. **Introduction** - This policy is designed to provide a framework for the management of risk associated with derivative instruments and hedging activities in connection with debt transactions. This policy is adopted pursuant to and is intended to be compliant with Section 108.170(7)(3) of the Revised Statutes of Missouri, as the same may be amended from time to time.

This policy shall be applicable to agreements providing for payments based upon levels of or changes in interest rates, including without limitation derivative agreements commonly referred to as interest rate swaps, hedges, caps, floors or collars, entered into in connection with bonds, notes or other obligations issued by or on behalf of the University, which bonds, notes or other obligations are either presently outstanding or expected to be issued, and bearing interest at fixed or variable rates of interest (individually a "Contract", "Agreement" or "Derivative

Transaction”, and collectively “Contracts”, “Agreements” or “Derivative Transactions”).

B. Responsibilities and Authorities – See CRR 145.010 “*Policy for Management and Oversight of Debt and Derivatives.*”

C. General Guidelines - The following non-exclusive list provides certain guidelines that the University will follow in the evaluation and recommendation of Derivative Transactions as defined in this policy:

1. Legality - Any proposed Contract must comply within the legal constraints imposed by state laws, University resolutions, and existing covenants, bond resolutions, indentures and other contracts.
2. Permitted Purposes and Financial Strategy - Derivative Transactions may be used to manage the University’s risk profile, including but not limited to tax risk, liquidity risk, and interest rate risk. The University will evaluate Derivative Transactions on a standalone basis, in the context of the debt portfolio, and in the context of the University as a whole (e.g., institutional tax risk and interest rate risk).
3. Mitigation of Risk Factors - The University recognizes that certain risks will be assumed if it enters into a Derivative Transaction. In order to mitigate the associated risks, the University will follow the guidelines described below:
 - i. *Counterparty Risk*: Counterparty risk is the risk that a counterparty fails to meet its obligations as described in the Contract. The University will seek to mitigate this risk by (a) evaluating the credit quality of any counterparty, including, but not limited to, public credit ratings, preferring higher creditworthiness for transactions which may have a significant financial impact, (b) diversifying its counterparty exposure among different financial institutions and (c) including, when appropriate, swap collateralization requirements which protect the University.
 - ii. *Termination Risk*: Termination risk is the risk that an event of default or credit rating downgrade below a set threshold triggers a termination event. Except for extenuating circumstances, it is the intent of the University not to make a

termination payment to a counterparty that has failed to meet its contractual obligations. At a minimum, prior to making any termination payment, the University will determine whether it is financially advantageous to obtain a replacement counterparty.

- iii. *Collateralization Risk:* Collateralization risk is the risk that the University must post collateral to secure a negative mark-to-market (or manage the receipt of collateral from a counterparty). Collateral thresholds will be selected to avoid significant portfolio burden arising from posting of collateral.
- iv. *Interest Rate Risk:* Many Derivative Transactions involve the assumption or removal of interest rate risk. Portfolio impact must be evaluated as well as institutional asset positions (or other investments) which may be impacted by changes in short or long interest rate risks.
- v. *Basis Risk:* Basis risk is the risk that the index chosen as the basis for floating rate payments in the Derivative Transaction does not match the floating rate of the underlying liability. The University will mitigate this risk by requiring that any index chosen as part of a Derivative Transaction must be a recognized market index, including but not limited to Securities Industry and Financial Markets Association (“SIFMA”) or London Interbank Offering Rate (“LIBOR”). The University will not enter into a Derivative Transaction without considering the potential incremental cost and risk to the University of basis risk.
- vi. *Tax Risk:* Tax risk is the risk that tax-exempt bond rates may unexpectedly increase or fluctuate due to changes in the tax code. Tax risk is present in all tax-exempt debt issuances. When entering into Derivative Transactions associated with tax-exempt bonds, tax risk involves tax-exempt bond rates consequently diverging from the specified swap index (a form of basis risk), resulting in a reduction in the derivative’s effectiveness as a hedge or as a risk management financial product. The University will mitigate this risk by managing the total tax risk that the University assumes in its overall debt portfolio.

- vii. *Bankruptcy Risk*: Bankruptcy risk is the risk that the University may fail to recover any amount due, potentially including collateral that has been posted, due to bankruptcy proceedings of a counterparty. The University will mitigate this risk by: (a) evaluating the credit quality of any counterparty, including, but not limited to, public credit ratings, preferring higher creditworthiness for transactions which may have a significant financial impact, (b) diversifying its counterparty exposure among different financial institutions and (c) including reasonable swap collateralization requirements.

As part of its efforts to mitigate risk, the University will also require the counterparty to disclose in writing the potential costs and risks associated with any Derivative Transaction.

In addition, in its consideration of whether or not to enter into a Derivative Transaction, and in the actual entrance into such a Derivative Transaction if so determined, the University shall consider recommended practices with respect to the use of debt-related derivative products published by the Government Finance Officers Association.

- D. **Market Disclosure** - The Treasurer will establish procedures to provide timely disclosure of material information related to executed Derivative Transactions to credit rating agencies and investors. Audited financial statements will include disclosure of any Derivative Transactions consistent with accounting practice. Any offering documents used in connection with new debt financings will include disclosure of any material information related to Derivative Transactions expected or anticipated at the time of issuance of the obligations.
- E. **Exclusions** - Nothing in this policy shall be applied or interpreted to diminish or alter the special or general power the University may otherwise have under any other provisions of law to use derivative instruments and engage in hedging activities other than Derivative Transactions covered by this Policy as defined in Section A.

General Business – Executive Session

University President’s Report to the Board of Curators on contracts – presented by President Wolfe.

General Counsel’s Report and advice on legal issues and contracts – presented by General Counsel Owens.

For the purpose of assuring compliance with University policies and state statutes related to ethics and conflicts of interest, Curator Phillips asked the Board to review the University’s contractual relationship with his law firm, Husch Blackwell LLP. The Husch firm and its predecessor firms have provided legal services to the University for several years. The firm was engaged in work on certain legal matters on January 31, 2013 when Mr. Phillips became a member of the Board of Curators. Curator Phillips was not engaged in providing services to the University at the time of his appointment or shortly before. Curator Phillips is an equity partner in the firm, but neither he nor any member of his family is an officer or director of the firm or own in excess of ten percent of the partnership’s units. University and state ethics and conflict of interest rules place restrictions on the University contracting for services with a curator while he or she serves as a curator. Those rules do not place restrictions on contracting with a curator’s law firm. Nonetheless, Curator Phillips and General Counsel Owens felt the Board should review the University’s relationship with the Husch firm in light of Mr. Phillip’s appointment to the Board.

After discussion, the Board felt it should go beyond mere compliance with applicable conflict of interest rules and, as a public entity, ensure the public that it is applying the highest ethical standards. The Board is sensitive to even the perception that, once on the Board, a curator could potentially influence contracting decisions in favor of his or her business. While fully complying with the law and avoiding any reasonable appearance of impropriety, the Board must balance its actions in a manner that is protective of the University and does not cause it undue hardship.

Considering the facts and law presented by this situation, and in desiring to demonstrate ethical standards beyond merely complying with the law, the Board and Curator Phillips agreed as follows:

1. The University will not enter into any contracts with, or permit any services to be performed by, Curator Phillips during his service on the Board and for two years thereafter, unless expressly permitted by the University's rules and state law. This approach is consistent with University rules and state law and it is being applied to Curator Phillips in the same manner and to the same extent as all other curators.
2. While University rules and state law would permit the University to continue to enter into contracts for services with the Husch law firm while Mr. Phillips serves on the Board, the University will not do so while he simultaneously serves on the Board and is affiliated with the Husch law firm, in order to avoid even the slightest appearance of any impropriety.
3. With regard to contracts for services with the Husch law firm that were in existence and in the process of being performed prior to Mr. Phillips joining the Board, the Board will allow performance of those contracts to be completed. Mr. Phillips clearly had no opportunity as a curator to influence the University's decision to enter into those contracts and terminating them in the midst of their performance would be a hardship on the University.
4. While Mr. Phillips' less than ten percent equity interest in the Husch firm neither makes him eligible to contract with the University nor, absent the Board's decision, disqualifies the Husch firm from contracting with the University, he has voluntarily agreed to relinquish his equity holding in the firm as a further demonstration of his and the Board's value for high ethical standards.

A complete record of all actions of the Executive Committee shall be kept by the Secretary of the Board, and a copy of such record shall be submitted to each member of the Board monthly and in advance of the next regular meeting of the Board. Actions of the Executive Committee may be ratified, approved, or modified at the next regular meeting of the Board, but any modification thereof shall be prospective only. If, at its next regular meeting, the Board takes no action on an Executive Committee action, the record of which was submitted to the Board prior to that regular meeting, such action shall be

deemed ratified by the Board. The vote of any members on any question coming before the Executive Committee may be taken in person, by telephone, telegraph, facsimile transmission, email or letter. - b. **Other Committees** -- The Chair of the Board may appoint subject to approval of the Board other standing or special committees of the Board from time to time and delegate to such committees such authority as the Board may deem appropriate to carry out the objects of such committees. Membership on such committees need not be limited to members of the Board.

5. **Quorum** -- Five members of the Board of Curators shall constitute a quorum for the transaction of any and all business of the Board. 6. **Action by Majority** -- Any action by the Board or any committee may be taken by the majority vote of the members present at any meeting of the Board or a committee when a quorum is present, unless otherwise specifically herein provided.

4. Revision, University of Missouri-Kansas City School of Medicine Standards of Professional Conduct & Honor Council Procedures

**University of Missouri-Kansas City School of Medicine
Standards of Professional Conduct and Honor Council Procedures**

STANDARDS OF PROFESSIONAL CONDUCT

Approved by the University of Missouri Board of Curators: December 1994, Revised
January 31, 2013

I. Preamble

Patient care professionals are characterized by 1) a prolonged specialized training in a body of knowledge and skills; 2) ethical principles; 3) a service orientation; and 4) judgment. These professions determine their own standards of education, training, licensure, and practice and have long subscribed to a body of ethical statements developed primarily for the benefit of the patient. As a potential future member of these professions, a student must recognize responsibility and an obligation not only to patients, but also to society, other health professionals, and self to behave in a manner compatible with the medical profession's standards of conduct.

One of the goals of a medical school is to educate a student during the transition to a professional life. The University of Missouri-Kansas City School of Medicine has an obligation to evaluate our students pursuing the M.D. and other patient care related degrees administered by the School of Medicine as thoroughly as possible for their cognitive abilities, their academic and professional knowledge and skills, their integrity, and their suitability for the practice of medicine. Accordingly, the Standards of Professional Conduct detailed in this document have been developed to guide the pre-professional behavior of students in patient care degree programs of the

University of Missouri-Kansas City School of Medicine and to prepare the students to meet the ethical standards of these medical professions.

II. Standards of Professional Conduct

A. Professional Integrity

1. Honesty

A student shall deal honestly with people including, but not limited to, colleagues, instructors, representatives of the University, patients, attending physicians, and other members of the health care team. Students are expected to demonstrate honesty and integrity in all aspects of their interaction with patients and staff — particularly in assuring accuracy and completeness of their part of the medical record. The student shall be willing to admit errors and must not mislead others or promote himself/herself at the patient's expense. The student shall strive to report, by utilizing the Honor Council Procedures for Violations of the Standards of Professional Conduct, those students deficient in character or competence, or who engage in fraud or deception.

The basic principle underlying all research is *honesty*. Scientists and students who participate in research have a responsibility to provide research results of the highest quality; to gather facts meticulously; to keep impeccable records of work done; to interpret results realistically, not forcing them into preconceived molds or models; and to report new knowledge through appropriate channels. Co-authors of research reports must be sufficiently acquainted with the work of their co-workers that they can personally vouch for the integrity of the study and validity of the findings, and must have been active in the research itself.

In all cases of academic dishonesty, the instructor shall make an academic judgment about the student's grade on that work and in that course. The instructor shall report the alleged academic dishonesty to the Chair of the Honor Council.

Examples of academic dishonesty include, but are not limited to, the following:

Cheating — 1) use of any unauthorized assistance in taking quizzes, tests, or examinations; 2) dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; or 3) acquisition or possession without permission of tests or other academic material belonging to a member of the University faculty or staff; 4) in any way giving assistance to others who are participating in any of the three preceding types of behavior; or, 5) falsifying attendance records or other official documents.

Plagiarism — 1) use by paraphrase or direct quotation of the published or unpublished work of another person without fully and properly crediting the author with footnotes, citations or bibliographical reference; 2) unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials; or 3) unacknowledged use of original work/material that has been produced through collaboration with others without release in writing from collaborators.

The detection may involve the use of commercially available software.

Sabotage — unauthorized interference with, modification of, or destruction of the work or intellectual property of another member of the University community.

Examples of dishonesty related to clinical practice include, but are not limited to, the following:

Falsification of Patient's Medical Record — writing progress notes regarding the patient's status, including, but not limited to, clinical observations or results in the patient's chart when the student has not seen or evaluated the patient, or using incorrect times of data entry.

Falsification of Patient's Medical Information — reporting medical information such as physical examination findings, lab values, test results, and any other relevant patient information to other students, residents, attending physicians, the patient, the patient's family, or other relevant medical personnel that has been fabricated by the student.

2. **Responsibility**

A student must acquire competencies with the appropriate concepts, knowledge, and skills which the faculty determine to be essential. These competencies shall be utilized to care for the sick and to promote the health and welfare of society. A student shall recognize a responsibility to participate in activities contributing to an improved community.

Students in the care of patients must not be harmful, dangerous, or negligent to the mental or physical health of a patient or the public. Negligent means the failure to use that degree of skill and learning ordinarily used under the same or similar circumstances by other students.

Students must pay tuition and other University fees, such as the medical equipment or disability fees, on time. Students must complete required forms of evaluation, degree forms, examination applications, etc. on time.

Students must be familiar with and follow the rules and regulations of the School of Medicine, the University, and related professional organizations.

B. Medical Professional Behavior

1. Nondiscrimination

A student shall be dedicated to providing supervised competent medical service with compassion, respect for human dignity, and without discrimination.

It is against University regulations to discriminate on the race, color, religion, sex, sexual orientation, national origin, age, disability and status as a Vietnam era veteran. The University has an AIDS policy statement consistent with state law that prohibits discrimination against persons with AIDS or who are HIV positive.

2. Representation

A student shall accurately represent himself/herself to others including, but not limited to, colleagues, instructors, representatives of the University, patients, attending physicians, and other members of the health care team.

Examples of misrepresentation include, but are not limited to, the following:

- (a) A student shall never use the title of “Doctor” or M.D., as this clearly misrepresents the student’s position, knowledge, and authority.
- (b) Use of fraud, deception, lies, or bribery in securing any certificate of registration or authority, diploma, permit or license issued, or in obtaining permission to take any examinations.
- (c) Impersonation of any person holding a certificate of registration or authority, permit, license or allowing any person to use his/her certificate of registration or authority, permit, license, or diploma from any school.
- (d) Forgery, alteration, or misuse of a patient's medical records or knowingly furnishing false information to the medical team and/or professional organizations.

3. Confidentiality

A student shall respect the rights of patients, colleagues, and other health professionals, and shall safeguard patient confidences within the constraints of the law. The patient’s right to confidentiality in regard to his/her medical record, which includes confidentiality of personal and social history, is a fundamental tenet to medical care.

The discussion in public of the problems of an identified patient, without the patient's permission, by professional staff (including students) violates patient confidentiality and is unethical. Under no circumstances can any medical record be removed from the institution. Photocopying of the entire record is never permitted for presentations or rounds; students are permitted to extract information, but not copy “wholesale” parts of the chart. Names of patients should be omitted from any documents used for these presentations.

4. Disclosure

While the student is a member of the medical team and under faculty supervision, a student shall continue to study, apply, and advance scientific knowledge, make relevant information available to patients, colleagues, and the public, obtain consultation, and use the talents of other health professionals when indicated.

Sharing of medical information appropriately with a patient and colleagues involved in the care of the patient is a fundamental ethical requirement. The patient must be well informed to make health care decisions and work intelligently in partnership with the medical team. Information that the patient needs for decision making shall be presented in terms the patient can understand. If, for some reason, the patient is unable to comprehend, there shall be disclosure to the patient's authorized representative.

Failure of a student to share medical information relevant to a patient with the patient and colleagues involved in the care of the patient is unethical. Providing inaccurate information with these individuals is also unacceptable.

5. Assessment of Personal Competence (Self-Evaluation)

Students shall seek consultation and supervision whenever their ability to play their role in the care for a patient is inadequate because of lack of knowledge or experience.

Students are expected to respond to constructive criticism by appropriate modification of behavior.

It is unacceptable for a student to attempt procedures or to prescribe therapies without supervision.

6. Professional Demeanor

The student is expected to be thoughtful and professional when interacting with patients and their families, attending physicians, supervising residents, and other students, and whenever his/her behavior may influence adversely the judgments of others about the professional school or University.

Students shall maintain a neat and clean appearance, and dress in attire that is generally accepted as professional by the patient populations served.

Inappropriate behavior includes, but is not limited to, the use of offensive language, gestures, or remarks. Attempting, directly or indirectly, by way of intimidation, coercion or deception, to obtain or retain a patient or discourage the use of a second opinion or consultation is not appropriate.

7. Informed Consent

Students are to understand the physician's obligation to obtain informed consent from patients, but are **not** responsible for obtaining it for a physician. Simply, it is the **physician's** responsibility to ensure that the patient or his/her surrogate be

appropriately informed as to the nature of the patient's medical condition, the objectives of proposed treatments, treatment alternatives, and risks involved. The patient's or surrogate's concurrence must be obtained without coercion.

8. Conflict of Interests

If a conflict of interest arises, the moral principle is clear — the welfare of the patient must be, at all times, paramount. For example, gifts, hospitality, or subsidies offered by manufacturers and distributors of medical and pharmaceutical equipment/goods shall not be accepted if acceptance would influence the objectivity of clinical judgment.

9. Misconduct with Patients

The student will not engage in romantic, sexual, or other non-professional behaviors with a patient — even upon the apparent request of a patient — while the student is involved with the patient's care.

10. Impairment

The student will not use alcohol or drugs in ways that impair his/her ability to perform the work of the profession or results in compromised patient care. It is the responsibility of every student to strive to protect the public from an impaired colleague and to assist that colleague whose capability is impaired because of alcohol or drug use.

11. Criticism of Colleagues

Professional relations among all members of the medical community shall be marked by civility. Scholarly contributions shall be acknowledged and each person shall recognize and facilitate the contributions of others to this community; slanderous comments and acts are not acceptable. Students shall deal with professional, staff, and peer members of the health team in a considerate manner and with a spirit of cooperation.

It is unethical and harmful for a student to disparage, without sufficient evidence, the professional competence, knowledge, qualifications, or services of a colleague to anyone. It is also unethical to imply without reliable evidence — by word, gesture, or deed — that a patient has been poorly managed or mistreated by a colleague.

12. Teaching

The word “doctor” (for the Latin “docere” — to teach) implies a responsibility to share knowledge and information with colleagues and patients. It is incumbent upon those entering this profession to teach what they know of the science, art, and ethics of medicine. It includes communicating clearly and teaching patients so that they are properly prepared to participate in their own care and in the maintenance of their health.

III. The University of Missouri Student Conduct Code

In addition to the conduct detailed in the preceding sections, a student is subject to the University of Missouri Student Conduct Code, as administered by the Office of the Vice Chancellor for Student Affairs, except for provisions dealing with academic dishonesty, in Section 200.010 B.1. of the Collected Rules and Regulations of the University (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct).

As of the date of this document, such conduct falls into the following categories, and is provided for the convenience of patient care professional students at the University of Missouri School of Medicine:

5. **Stalking** another by following or engaging in a course of conduct with no legitimate purpose that puts another person reasonably in fear for his or her safety or would cause a reasonable person under the circumstances to be frightened, intimidated or emotionally distressed.
6. **Harassment** by engaging in a course of conduct directed at a specific person that serves no legitimate purpose that would cause a reasonable person under the circumstances to be frightened, intimidated, or emotionally distressed.
7. **Invasion of privacy** by photographing or recording (using electronic or other means) another person in a state of full or partial nudity in a place where one would have a reasonable expectation of privacy without that person's consent, and distributing or transmitting that image without that person's consent.
8. **Participating in attempted or actual theft** of, damage to, or possession without permission of property of the University or of a member of the University community or of a campus visitor.
9. **Unauthorized possession**, duplication or use of keys to any University facilities or unauthorized entry to or use of University facilities.
10. **Violation of University policies**, rules or regulations or of campus regulations including, but not limited to, those governing residence in

University-provided housing, or the use of University facilities, or the time, place and manner of public expression.

11. **Manufacture, use, possession, sale or distribution of alcoholic beverages** or any controlled substance without proper prescription or required license or as expressly permitted by law or University regulations, including operating a vehicle on University property, or on streets or roadways adjacent to and abutting a campus, under the influence of alcohol or a controlled substance as prohibited by law of the state of Missouri.

 - c. Unauthorized transfer of a file.
 - d. Unauthorized use of another individual's identification and password.

The Chair of the Honor Council or his/her designee shall investigate any reported student misconduct before initiating formal conduct procedures. The reporter will be requested to meet with the Chair or his/her designee to discuss the alleged violation.

The Chair is responsible for notifying, in writing, the accused student of the charge brought against him/her prior to the commencement of the investigation. In addition, the student charged with misconduct shall receive a copy of these Procedures for Violations of the Standards of Professional Conduct along with the written notice. The Chair shall meet with the accused student to give the student the opportunity to present a personal version of the incident or occurrence.

C. **Informal Disposition**

After conducting an investigation, the Chair or his/her designee shall provide a written report to the Dean, the accused student, and the Honor Council members.

The Chair shall have the authority to dismiss a charge that is determined unfounded or to impose appropriate sanctions and shall fix a reasonable time within which the student shall accept or reject a proposed informal disposition.

A failure of the student either to accept or reject within the time fixed shall be deemed to be an acceptance and, in such event, the proposed disposition shall become final upon expiration of such time.

If the student rejects informal disposition, it must be in writing and shall be forwarded to the Honor Council.

The Chair may refer cases to the Honor Council for formal investigation and hearing without first offering informal disposition.

The Dean or his/her designee may at any time temporarily suspend or deny readmission to a student from the School of Medicine pending formal procedures when the Dean or his/her designee finds and believes from available information that the presence of a student on campus would seriously disrupt the School of Medicine or constitute a danger to the health, safety, or welfare of members of the School of Medicine community. The appropriate procedure to determine the future status of the student will be initiated within seven calendar days.

D. Notice of Hearing

Upon completion of the investigation, when a student rejects informal disposition or the charge justifies a formal hearing, in the judgment of the Honor Council Chair, the Chair will schedule a formal hearing as soon as possible.

The reporter, witnesses, and accused student will be given written notice of the hearing by email or personal delivery. The notice shall set forth the date, time, and place of the alleged violation, the conduct for inquiry, the date, time, and place of the hearing before the Council, request for attendance of the parties involved, and a reference for the accused student to the Rights of the Accused Student Upon Hearing which are outlined in these Procedures.

Notice by certified mail may be addressed to the mailing address currently on record with the university. Failure by the accused student to have a current correct local address on record with the School of Medicine shall not be construed to invalidate such notice.

The notice shall be given at least seven (7) consecutive calendar days prior to the hearing, unless a shorter time be fixed by the Chair for good cause.

Any request for continuance shall be made in writing to the Chair who shall have the authority at his/her discretion to postpone the hearing if he/she determines the request is timely and made for good cause. The Chair shall notify the Honor Council members, the accused student, the reporter, the witnesses, and any other relevant individuals of the new date for the hearing.

If the accused student fails to appear at the scheduled time, the Honor Council may hear and determine the matter in the student's absence.

The hearings shall be audio taped, and written minutes are also recorded. The notice, exhibits, hearing record, verdict, and disposition of the Honor Council shall become the “Record of the Case”. All requests to address the Council shall be addressed to the Chair. The Chair will rule on all requests and points of order and may consult with Council's legal adviser prior to any ruling. The Chair's ruling shall be final, and all participants shall abide thereby, unless the Chair shall present the question to the Council at the request of a member of the Council, in which event the ruling of the Council by majority vote shall be final.

Rules of common courtesy and decency shall be observed at all times. An adviser or counselor may be permitted to address the Council at the discretion of the Chair. An adviser or counselor may request clarification of a procedural matter or object on the basis of procedure at any time by addressing the Chair after recognition.

If it appears that essential testimony is unavailable, or that for other good cause the hearing should be deferred, the Council may continue, recess, or discontinue the hearing without prejudice.

V. **Determination of the Honor Council**

Following the hearing, the Council shall promptly deliberate in closed session out of the presence of the student charged. Determination is to be made regarding both the validity of the misconduct charge and on the discipline, if any, to be imposed.

A. **Violation of the Standards of Professional Conduct**

The Honor Council shall determine if the evidence presented in the hearing supports the charge of violation of the Standards of Professional Conduct. The Council shall render a decision, by simple majority vote, of whether a violation has been committed by the accused. Each charge of misconduct, if there are more than one, shall be considered individually and/or collectively at the discretion of the Council.

B. **Discipline Imposed**

The Honor Council shall determine the discipline to be imposed, if any, based upon its deliberations. One of the following forms of discipline is to be recommended by means of simple majority vote of the Council members. Where there are multiple violations, there can be separate sanctions for each violation. The sanctions include, but are not limited to, the following:

No Disciplinary Action. Given when the student is not found in violation of the Standards of Professional Conduct.

Warning. A written reprimand to the student that the student has violated the Standards of Professional Conduct. A copy is to be placed in the student's file.

Probation. A written reprimand to the student for violation of the Standards of Academic Conduct that includes a designated period of time, the probability of more severe sanctions if the student violates any institutional regulation(s) during the probationary period, and subject to any appropriate terms or conditions, such as loss of privileges, restitution, and discretionary assignments.

Suspension. An involuntary separation of the student from the School of Medicine for a specified period of time or until a special conditions have been met, with a statement whether suspension should relate back to the date of the offense, begin at the time imposed, or begin at a date specified in the future. At the conclusion of the period of suspension, the suspended student is automatically returned to student status. Conditions for readmission may be specified.

Dismissal. An involuntary separation from the School of Medicine for an indefinite period of time. The order of dismissal may specify a date before

which the faculty will not consider a petition for readmission from the dismissed student.

Expulsion. Permanent separation of the student from the School of Medicine.

The above sanctions apply to the status of the accused student in the School of Medicine. Any sanction impacting a student's enrollment status and/or privileges will be forwarded to the Vice Chancellor for Student Affairs or designee for information purposes.

An oral presentation of the Council's findings and recommendations is permitted following the hearing, but a written document including findings of fact, verdict, and recommended disposition shall be completed as soon as possible after the hearing. This Final Report of the Council shall be submitted to the Coordinating Committee, the Dean, and the Office of the Vice Chancellor for Student Affairs.

VI. Decision of the Coordinating Committee

The findings and determination of the Honor Council serve as recommendations to the Coordinating Committee and to the Dean of the School of Medicine. The Coordinating Committee, chaired by the Associate Dean for Academic Affairs and composed of members detailed in *The Academic Plan for the School of Medicine*, reviews the charge of misconduct, the findings of fact, the decision of the Council, and the recommended discipline to be imposed from the Honor Council.

After deliberation and careful consideration, the Coordinating Committee approves, by simple majority vote, one of the following actions: 1) to sustain the recommendations of the Honor Council; 2) to amend the recommendations of the Honor Council to another type of sanction; 3) to remand the Honor Council's recommendations; or, 4) to reverse the Honor Council's recommendations.

The findings and determinations of the Honor Council and the Coordinating Committee shall be transmitted to the Dean in writing within seven (7) consecutive calendar days following the Coordinating Committee meeting. A copy of this recommendation shall also be transmitted to the accused student by email or personal delivery in the indicated time frame.

VII. Decision of the Dean

Upon receipt of the documents from the Honor Council and the Coordinating Committee, the Dean shall review the entire record that includes the following: 1) formal notice of the charges; 2) minutes of the Honor Council hearing; 3) written findings of the Honor Council and its recommendations to the Coordinating Committee; and 4) written decision of the Coordinating Committee concerning the sanction passed.

The Dean will, within a reasonable amount of time, make a decision to either affirm, amend, or reverse the Coordinating Committee's sentence, or remand the Coordinating Committee for further proceedings.

The Dean shall notify the student in writing by certified mail or personal delivery of his/her final decision. Copies of the letter will be sent to the Honor Council Chair and the Coordinating Committee Chair, and will be placed in the student's file and in the official hearing file.

VIII. Right of Appeal

When a recommendation from the Honor Council and the Coordinating Committee is made for some form of disciplinary action other than “none”, and this is upheld by the Dean, or if a recommendation of "no disciplinary action" is revised to one of greater severity by the Dean, the student may appeal such decision to the Chancellor or his/her designated representative by filing written notice of appeal with the Chancellor within ten (10) consecutive calendar days after notification of the decision of the Dean. A copy of the Notice of Appeal will also be given by the student to the Dean of the School of Medicine at the time of filing. The student may file a written memorandum for consideration by the Chancellor with the Notice of Appeal.

The Chancellor or his/her designated representative shall review the full record of the case and the appeal documents and may affirm, reverse, or remand the case for further proceedings and shall notify the Dean and the student in writing of the decision on the appeal. The action of the Chancellor shall be final unless it be to remand the matter for further proceedings.

Status during Appeal: In cases of suspension, dismissal, or expulsion where a Notice of Appeal is filed within the required time, a student may petition the Chancellor in writing for permission to attend classes pending final determination of appeal. The Chancellor may permit a student to continue in school under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not disrupt the University or constitute a danger to the health, safety, or welfare of the University community. In such event, however, any final disciplinary action imposed shall be effective from the date of the action of the Dean.

IX. Status of the Standards of Professional Conduct

Amendments to the Standards of Professional Conduct and/or Honor Council Procedures for Violations may be proposed by petition of any twenty-five members of the student body, the Honor Council on its own motion, or the faculty.

A proposed amendment in the Standards of Professional Conduct and/or Honor Council Procedures for Violations must be approved by the Honor Council, the Coordinating Committee, the Dean, the Chancellor, and the Board of Curators.

The Standards of Professional Conduct and/or Honor Council Procedures for Violations may be terminated at any time by action under the general amending procedure.

All students in the School of Medicine, including students enrolled in either the M.D. or graduate Professional programs involving direct patient care at the UMKC School of Medicine are subject to the jurisdiction of the Standards of Professional Conduct and

Honor Council Procedures for Violations upon enrollment. To insure their knowledge of the Standards of Professional Conduct and Honor Council Procedures for Violations, the presentation of these documents shall be an integral part of the orientation of newly accepted students in these programs to the School of Medicine.

Resolution, Retiring Curator Warren K. Erdman

It was endorsed by President Wolfe, recommended by Chairman Goode, moved by Curator Bradley and seconded by Curator Cupps, that the following resolution recognizing the dedicated service of Warren K. Erdman to the Board of Curators be approved:

RESOLUTION

WHEREAS, Warren K. Erdman, has served the people of Missouri with distinction as a member of the University of Missouri Board of Curators since January 1, 2007; and

WHEREAS, during his term of service, Curator Erdman served on the Academic, Student and External Affairs; Governance; Compensation and Human Resources; Resources and Planning; and Executive committees and was chair of the Board of Curators from January 1, 2011 to Dec. 31, 2011; and

WHEREAS, during his service on the Board, Curator Erdman was an active and enthusiastic spokesman for the value of public higher education, including the concepts underpinning the Advancing Missouri campaign, helping to raise awareness of the many ways the University of Missouri makes possible the advancement of the state. This commitment was demonstrated in many ways, but in particular by his

yielding of his remarks as chair to showcase others who made remarkable contributions to the state on behalf of the university; and

WHEREAS, during his service, Curator Erdman participated in two presidential searches, one of which he chaired, spending countless hours finding the right candidates for the job. His leadership and commitment to having broad and inclusive searches ensured successful outcomes and resulted in the hiring of two exceptional individuals; and

WHEREAS, Curator Erdman's foresight and economic acumen led to the realization of the Enterprise Investment Program, a visionary seed funding program designed to move university innovations into the marketplace; and

WHEREAS, during Curator Erdman's tenure as chair of the Compensation and Human Resources Committee, an ad hoc Committee was appointed to seek faculty and staff input and recommend changes to the University's retirement plan for future employees. This critical step led to a unique plan design and consensus among disparate constituencies, resulting in a more stable and viable retirement plan; and

WHEREAS, during his tenure, Curator Erdman worked passionately to identify new revenue sources and maximize budgetary measures already in place, and was a proponent for the decoupling of tuition at the University of Missouri's four campuses to better reflect market demand and the unique strengths and missions of each campus; and

WHEREAS, although his heart is in Kansas City and he is particularly proud of the UMKC Conservatory of Music and Dance, Curator Erdman served as a knowledgeable and enthusiastic emissary for the entire University of Missouri, and he was frequently called upon as a credible source to speak to the many issues affecting the system and its campuses; and

WHEREAS, Curator Erdman was a proponent of a review and implementation of policies for centers and institutes on the campuses to identify those that were no longer viable, thus releasing general operating funds for other strategic purposes; and

WHEREAS, while serving as Chair of the Board of Curators, Curator Erdman led a record number of 25 meetings during the course of a year; and

WHEREAS, in addition to his duties on the Board of Curators, Curator Erdman continued to advocate passionately for higher education on his own time, working to support a ballot measure that would increase the state's cigarette tax to generate increased financial support for public higher education; and

WHEREAS, in conjunction with a Board meeting, he and his wife, Jenny, graciously hosted the Board, General Officers and guests for dinner at his home and a cheer performance from his daughter, Audrey; and

WHEREAS, his wife, Jenny, son August and daughter Audrey, sacrificed their time with him as he attended to board business. They also shared his enthusiasm for Tiger and Kangaroo athletics;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Curators, on behalf of the students, faculty, staff and alumni of the University of Missouri, and on behalf of the citizens of the state of Missouri, does hereby adopt this resolution in sincere appreciation of the dedicated and devoted leadership of Warren K. Erdman;

AND ALSO, that his future relations with the University of Missouri be formally recognized by bestowing the title of “Curator Emeritus” upon Warren K. Erdman; and
