- B. **Purposes of the Plan**—Faculty members of the School of Medicine may be engaged in one or more of the following employment duties: teaching, research and patient care. Patient care is an integral part of the educational mission of the school for it provides to the instructor and the medical student the clinical experience essential to medical education. In the course of rendering patient care services, faculty members may generate income described in this Plan as plan income.

This plan has been created to provide a means for establishing salary compensation for employment services rendered by plan participants to their employer, the University, an educational organization. All payments to plan

participants made pursuant to the provisions of this plan are salary payments by the employer to the participants as employees and subject to the rules and regulations of the University governing the approval and payment of salaries. All plan income referred to in Section 440.040 D. shall be irrevocably assigned to the employer by the plan participants as agents (employees) of the employer; no plan participant shall have any right, title or interest in any such plan income; and the employer shall have the unrestricted right to such income and complete control over its disposition. Provisions in this plan for accounting for plan income and expenses and for recommendations from plan participants are not intended to and shall not be construed to confer on plan participants any right, title or interest in plan income, any right to control the disposition of plan income and expenses, or any right to determine salaries. In addition, the plan is created to implement the following purposes:

1. To provide a system by which the faculty is enabled to achieve fulfillment of their commitment to high quality patient care.
2. To recognize that high quality patient care is related to faculty participation in teaching and research and also that high quality clinical teaching is dependent upon the faculty being engaged in active medical practice, thereby assuring an adequate supply of clinical material for educational purposes.
3. To establish incentive mechanisms for faculty compensation which enhance the attainment of the patient care, teaching and research goals of the School of Medicine, University Physicians and MU Health Care.
4. To assure a University Physicians Medical Practice Plan which will be competitive with income plans of other academic medical centers in the United States.
5. To assist with the retention of qualified faculty by contributing to their total compensation.
6. To establish and maintain a set of policies for the management of professional income which is sufficiently flexible to respond to the needs of all participating individuals, sections and departmental differences.
7. To provide a mechanism for Staff Physicians to participate in the governance of University Physicians.
8. To provide a mechanism to support programs that benefit the School of Medicine.
9. To establish a methodology of professional income generation, distribution and utilization.

C. Participants—All Faculty and Staff Physicians of the School of Medicine who are members of the MU Health Care Medical Staff who as part of their employment responsibilities generate income from professional activities for patient care related services which is assigned to the University pursuant to the Plan shall be participants in the Plan.

1. For each participant, a written Agreement shall be executed annually and filed in the Business Office of University Physicians. Each Agreement shall

contain a statement that the participant will abide by all provisions of the Plan.

2. Section F, Distribution of Net Plan Income, and Section G, Distribution of Incentive Income, do not apply to Staff Physicians.

D. Plan Income—Within the framework of the Plan, Plan income means:

All income derived from patient care and other income derived from patient care provided by a participant in the performance of regularly assigned duties for the University as determined by the appropriate person having supervisory authority of the participant. For participants who are full time employees (0.75 FTE or greater), such participants may not engage in income-generating patient care activities outside of their regularly assigned duties for the University unless such outside activity complies with applicable law and University policy and has been approved by the Dean and Department chair.

1. As unique instances of patient care occur, the University Physicians Management Committee will recommend whether income derived from these instances constitute Plan income.
2. Income of participants not related to patient care shall not be Plan income.
3. Section 490.020 of the Collected Rules and Regulations of the University establishes the terms and conditions of coverage for Medical, Professional, and Patient General Liability for University employees and should be separately reviewed to determine whether and to what extent coverage exists for activities done outside of regularly assigned duties for the University.

E. Distribution of Plan Income

1. **Costs of Operations**—The costs of operations of the Plan will be funded by applying an approved deduction rate (percent) to Plan Income. The costs of operation of the Plan may include expenditures for the following items and activities:

- Billing and Collections Costs
- Professional Liability Insurance
- Support personnel, services and facilities
- Administrative costs
- Retirement
- Other items that are deemed necessary in the operation of the Plan

Annually and as requested by the University Physicians Management Committee, the Executive Director of the University Physicians will report to the University Physicians Management Committee the expenditures to date for the costs of operation of the Plan. A final accounting report will be issued after the close of the accounting period.

An annual budget will be submitted for the costs of operation of the Plan. Based on the budget that is submitted the University Physicians Committee shall recommend a deduction rate to be proposed for the period covered by the budget. The proposed deduction rate and budget for the next fiscal year

must be approved by the Dean.

Further, for certain types of Plan income, such as contract income and certain other types of “lump sum” income, requiring a minimum of administrative and business office expense, it may be appropriate to establish a special deduction rate(s) to cover operating costs.

In exceptional circumstances, it may be necessary to alter the deduction rate during the fiscal year. Such an alteration will be recommended by the University Physicians Management Committee and approved by the Dean.

Separate accounts will be established for each category of expenditures authorized in this Section 440.040 E.1. Expenditures from these accounts will be in accordance with standard University standards.

From time to time good accounting practice and effective fiscal management may well indicate a need to revise, expand, contract or otherwise modify the accounting system relative to the Plan. Nothing in this Plan shall be interpreted as preventing such accounting revision, expansion, modification or contraction so long as they adhere to generally accepted accounting principles and University policy.

2. **Dean's Office Account** —A Dean's office account shall be maintained. The account shall be credited with 6 percent of the Plan income. Any expenditures or transfers from this account must conform to standard University budgeting policy.

The Dean's Office account is established to support research and development costs, capital improvements, new members of the faculty, renovation, the Health Sciences Library and for such other purposes that are of general benefit to the School of Medicine.

3. **Departmental Accounts**—A departmental and or Sectional/Divisional account shall be maintained for each department and/or section/division. The departmental accounts shall be credited with 10 percent of the departmental Plan income.

Annually on the date established by the Dean, the department is to submit a comprehensive budget to include the distribution of the department's share of Plan income. This annual budget must be approved by the Chair of the Department and the Dean.

Expenditure from these accounts shall be in accordance with standard University policy.

Voluntary contributions to the Dean's Office account may be made annually from each departmental and/or sectional/divisional account. The University Physicians Administration Office shall supply the Dean and the University Physicians Management Committee with a periodic statement of account for each departmental and/or sectional/divisional account. A periodic statement of account shall be furnished to each Department Chair

or Section/Division Head for their own departmental or sectional/divisional account.

F. Distribution of Net Plan Income

1. **For purpose of this section, the following definition applies:** The words “Net Plan Income” shall be construed to be plan income (Section 440.040 A.3) less the distribution of plan income as outlined in Section 440.040 E. Net Plan Income will be those funds available to meet base salary contract commitments as outlined in Section 440.040 F.2, and incentive income as outlined in Section 440.040 G.
2. **Salary Contract—Base Salary** —A participant's base salary may be budgeted from plan income and/or from funds derived outside the Plan Recommendation of the individual faculty member's base salary contract from all sources including Plan income shall be made by the appropriate Departmental Chair and approved by the Dean to the appointing authority with this determination becoming a part of the recommended School of Medicine budget. That portion of the faculty member's base salary which is budgeted from Plan income shall preferably reflect the extent of their efforts in patient care. The salary contract will be negotiated in the same manner as other School of Medicine faculty contracts.
The portion of base salary budgeted from plan income is payable only to the extent of departmental net plan income. If Departmental net plan income is not sufficient to meet budgeted base salary, then the individual Department Trust funds or the School of Medicine funds will meet the remainder of the obligation.
Under normal circumstances the portion of the individual's base salary budgeted from Plan income will be derived through only one Section/Division or Department. Under the special circumstances of interdisciplinary programs individuals with joint appointments may derive salary measured by Plan income from more than one Section/Division or Department with the approval of the participant, the Section/Division Chief or Chiefs, the Department Chair, University Physicians Management Committee and the Dean.
The faculty contract year for the purposes of the Plan will be the faculty contract year of MU. Faculty members who commence employment subsequent to the beginning of the faculty contract year may be a participant for the remainder of the year.
3. **Payment of Base Salary** —A departmental or divisional/sectional base salary pool shall be established for each department or division/section in which net plan income will be pooled and from which base salaries as outlined above (Section 440.040 F.2) will be paid.

G. Distribution of Incentive Income

1. For purposes of this section, the following definition applies: The words “Incentive Income” will refer to net plan income less the costs of base salary contract commitments as outlined in Section 440.040 F.

2. Individual Participant

- a. In addition to base salary (440.040 F. above) a participant may receive available incentive income as incentive salary. A participant can receive incentive salary only if the participant generated net revenue sufficient to meet their portion of base salary as described in Section 440.040 F.2. Individual participants may allow reductions of incentive salary for support of their Department or Section/Division. This amount will be determined by negotiations between the individual and their Department Chair with approval of the Dean. Such arrangements and the allocation of such incentive salary shall be determined prior to the commencement of the salary contract year and agreed to in writing by the participant and approved by the Chief of the Section/Division, the Department Chair and the Dean.

3. Group Participants

- a. In some circumstances it may be appropriate for participants within a department and/or section/division to practice as a group and pool their incentive income. Such arrangements and the allocation of such incentive salary among the participants in the department or section/division shall be determined prior to the commencement of the salary contract year and agreed to in writing by each participant and approved by the chief of the section/division, the Department Chair and the Dean.

If the faculty plan participant provides less than 60 days advance written notice of resignation to the Department Chair, the plan participant shall not receive incentive salary for the final incentive period during the participant's employment unless the Department Chair for the plan participant waives the 60 day notice requirement. Uncollected fees at the effective date of termination or resignation which are subsequently collected shall be allocated to the departmental base salary pool (Section 440.040 F.3) after deductions for the cost of operation of the plan (Section 440.040 E.1) School of Medicine Account (Section 440.040 E.2), and Departmental Account (Section 440.040 E.3). Distribution of incentive

2. **Death or Disability of a Plan Participant**—Upon the death or disability of a faculty plan participant there shall be paid to the faculty participant or the participant's estate all salary payments then due in accordance with their current salary contract for services rendered to the date of death or disability. Incentive salary, if any, will be based upon fees earned and collected at the date of death or disability. In addition there shall be paid to the faculty participant or the deceased faculty participant's estate an amount equal to the participant's incentive salary based on uncollected fees at the time of their death or disability, reduced by the amount of such fees that are not in disability. Reasonable efforts shall be taken to collect all such accounts within the six month period. This additional payment shall be made to the participant or the estate of the deceased participant as soon after the end of the six month period as is practicable. Income from any fees uncollected at the end of the six month period which are subsequently collected shall be allocated to the departmental base salary pool (Section 440.040 F.3), School of Medicine Account (Section 440.040 E.2), and Departmental Account (Section 440.040 E.3). - P. **Assignment of Fees**—Each Participant shall annually execute an assignment in a form to be approved by the Executive Committee of the University Physicians

Management Committee. For fiscal year 2018, the assignment form shall be substantially similar to the following form:

ASSIGNMENT

In consideration of my employment by The Curators of the University of Missouri and the salary payments described in this Plan, I hereby assign to The Curators of the University of Missouri all Plan Income, as defined by the University Physicians Medical Practice Plan. This assignment shall be an absolute assignment, subject only to the conditions that the fees charged by me shall not be altered, except as provided in the rules and regulations establishing said Plan.

I further agree that all monies received by me for such services shall be promptly turned over to the Business Office of University Physicians and all checks made payable to me for such fees shall be promptly endorsed and delivered to said Business Office. It is distinctly understood that this assignment applies only to the income specifically identified in the University Physicians Medical Practice Plan.

In consideration of my being permitted to participate in the University Physicians Practice Plan, I agree to fully cooperate therein and comply with all the rules and regulations of the Plan and my Department. I acknowledge receipt of the attached materials regarding billing, documentation, and compliance policies for rendering professional services.

I agree that I will comply with all applicable billing and documentation policies, including but not limited to those outlined in the Teaching Physician Regulations of the Centers for Medicare and Medicaid Services (CMS). Further, I agree to participate in the mandatory education programs on billing and documentation that are provided by the University Physicians Medical Practice Plan. These education programs will include regular and periodic reviews of billing and documentation practices and focused education with follow-up billing and documentation audit for any deficiencies identified. I understand that if deficiencies in compliance are identified after my participation in focused education, a comprehensive audit of my billing and documentation will be conducted at my expense and I may be subject to loss of eligibility for incentive income and other corrective actions specified in the University Physicians policies. I understand that failure to comply with these requirements may result in suspension of billing privileges, and may include disciplinary action by The Curators of the University of Missouri.
