Re: Self-Funded Auto/General Liability/Self-Insured Workers' Compensation

To Whom It May Concern:

The Curators of the University of Missouri have a Self-Funded Retention Program for its auto and general liability losses. The Self-Funded Retention Program is used to provide payment for exposures and claims arising from the negligence of the University, its officers, agents, and employees, and for which the University, its officers, agents, and employees are found to be liable.

The self-funded auto/general liability retention program has a limit of \$1,000,000 per occurrence and \$3,000,000 annual aggregate. Reserves for the program are determined and set aside by the University for the Self-Funded Retention Program.

The Curators of the University of Missouri is an approved Missouri self-insurer for Workers' Compensation coverage. All employees, including some student employees, part-time employees, and some volunteers are covered by Workers' Compensation. A specific fund is maintained, based on actuarial determination, to cover obligations arising from Workers' Compensation exposure.

Should you require additional information, please advise.

Sincerely,

Ed Knollmeyer
